## CAREER OBJECTIVE

Final-year Electrical & Electronics Engineering student passionate about RPA & AI automation, having built projects using UiPath & n8n, aiming to contribute to Boundaryless Group by creating smart, efficient automation solutions.

## EDUCATION

<b>B.Tech (Electrical &amp; Electronics Engineering )</b> , BVC Engineering college CGPA : 8.0	2022 – 2026   Odalarevu, India
<b>Intermediate (MPC)</b> , Govt. Junior College Percentage : 61.2%	2021 – 2022   Kothapeta, India
<b>SSC</b> , Zilla Parishad Girls High School Percentage : 94%	2019 – 2020   Kothapeta, India

## INTERNSHIPS

- ServiceNow Virtual Internship Program** | Remote May, 2025 – Oct, 2025
- Gained hands-on exposure to ServiceNow platform workflows, automation, and cloud-based system management.
  - Strengthened understanding of IT Service Management (ITSM) and enterprise automation processes.
- Edunet Foundation | Cyber Security Intern** | Remote May, 2024 – June, 2024
- Utilized Kali Linux for hands-on- cyber security experience.
  - Collaborated with instructors and peers to understand and implement various cybersecurity concepts.

## PROJECTS

- CareerMate – Intelligent Resume Analysis Bot** | UiPath 🔗
- Developed an RPA-based automation project using UiPath to analyze resumes against job descriptions and calculate ATS scores for students and job seekers.
  - Integrated AI-powered evaluation workflows to provide detailed insights, skill gap analysis, and generate expected interview questions for personalized preparation.
- GrabNGo - WhatsApp Restaurant Automation Bot** | n8n 🔗
- Built an AI-powered WhatsApp automation bot using n8n, Gemini AI, and Google Sheets, automating menu display, order management, and confirmations.
  - Integrated WhatsApp Business API for real-time communication, enabling 24×7 smart order handling without manual effort.

## SKILLS

Python | HTML | CSS | UiPath Studio | N8N | Internet Of Things | MATLAB | GitHub | Vs Code | JAVA | Kali Linux

## CERTIFICATIONS

- Certified System Administrator (CSA) – ServiceNow
- Certified Application Developer (CAD) – ServiceNow
- Oracle Cloud Infrastructure Foundation Associate – Oracle

## ACHIEVEMENTS

- **NationalLevelTechnical Symposium Award** secured 3rd prize in project presentation at VEDA 2K24.
- Organized and represented BVCEC in **IEEE Xtreme 19.0, a global 24-hour coding hackathon**, as the Student Ambassador, driving participation and mentoring peers throughout the event.
- Coding Proficiency: Completed HackerRank's 30 Days of coding challenge.

## EXTRA CURRICULAR

- Participated in an industry-led session on **Agentic Automation with UiPath**, learning to design and deploy intelligent automation agents and applying concepts through the **CareerMate RPA project**.
- Participated in **Google Developer Groups WOW'25 Hackathon** at Vizag, collaborating on innovative software solutions.
- Participated in the **Infosys Springboard – Pragathi Path to Future (Cohort-3)**, an 11-week AI, NLP, and Deep Learning program enhancing problem-solving and tech-integration skills.
- 1-Week Workshop on **Internet of Things (IoT)** – Hands-on exposure to sensor integration, embedded system programming, and wireless communication.
